ABSTRACT

Highlights of a study of student enrollments in the various instructional programs offered by the Illinois public community colleges for Fall 1977 are presented. Each instructional program was classified by the Higher Education General Information Survey (HEGIS) taxonomy, and student enrollment data, as reported by the colleges, were compiled for each classification. Five tables present the following: (1) total number of curricula and enrollment in Illinois community colleges by instructional program area during the Fall 1977 term, (2) summary of curriculum offerings and enrollments by community college district, (3) summary of curricula and enrollments by major instructional areas by college, (4) curriculum enrollment during Fall 1977 by two-digit HEGIS program area code, and (5) state summary of curriculum enrollments by HEGIS classification codes. Statistics reveal that during the 1977 Fall term, the 39 community college districts (51 individual campuses) reported a combined total of 2,899 educational curricula in 173 different HEGIS classifications. The enrollments in these curricula totaled 327,850 students. (MB)

PREFACE

This report contains a summary of student enrollments in the various instructional program offerings in the Illinois Public Community Colleges for the Fall term of the 1977-78 academic year. Each instructional program is on file in the ICCB Curriculum Master File and is classified by the Higher Education General Information Survey (HEGIS) taxonomy. The community colleges report the curriculum of each student enrolled at their college on the Enrollment Cards (E-cards). An interface of the E-card file and the Curriculum Master File permits an analysis of enrollments by the various instructional program classifications. The two detailed reports which are produced from this interface are the following:

1. Curriculum enrollment by HEGIS classification for the entire state showing the colleges that offer each particular curriculum and the number of students enrolled in that curriculum.

2. Curriculum enrollment by college by HEGIS showing a list of curricula and enrollments for each community college campus in HEGIS order.

This summary report presents only the highlights of the detailed curriculum enrollment printouts which are on file in the ICCB office. The detailed printouts of curriculum enrollment for each college were sent to the colleges and the curriculum enrollment by HEGIS for the State is available in the ICCB office.

Some colleges have programs approved in which no enrollments were reported. The reasons for this are unclear in many cases. At some colleges, a career ladder concept is utilized whereby the students who complete a certificate can continue in school to work toward an associate degree. At these colleges, students in a given area of study are often reported as enrolled in the associate degree curriculum in that area although the college may have several certificate programs in that area. Community colleges in Illinois are not always consistent in classifying students into a specific curriculum. Students enrolled in programs such as nursing, electronics technology, or secretarial science are very easy to classify, however, students enrolled on a part-time basis taking only evening courses are very difficult to classify by curriculum because many are not sure of their long-term goals and some take only one course with no intention of completing a certificate or degree program. Community colleges use different procedures for classifying the part-time evening students. Some colleges assign these students to the curriculum that the student chooses, other assign them to a curriculum based on the course that they are taking, while some colleges assign these students to the "undeclared" curriculum.

DEFINITION OF TERMS

Cummulative Enrollment - Includes all students enrolled during a given term regardless of the time of registration. This is different from census date enrollment counts which are based upon the number of students enrolled on a given date.

Curriculum - Synonymous with an instructional program - is a series of prescribed courses leading to a certificate or an associate degree which meets specific educational goals. Each curriculum in the Illinois public community colleges is approved by the Illinois Community College Board and the Illinois Board of Higher Education and is kept on file on the ICCB MIS.

HEGIS - Higher Education General Information Survey Classification codes which are used by U. S. Office of Education.

Instructional Program - Synonymous with curriculum - a series of prescribed courses leading to an associate degree or certificate which meets specific educational goals. Each instructional program in the Illinois public community colleges is approved by the Illinois Community College Board and the Illinois Board of Higher Education and is kept on file on the ICCB MIS.

Instructional Area - is a classification of instructional programs or curricula and courses into the subdivisions identified by the NCHEMS Program Classification Structure (PCS). For example, a PCS code of 1.1 identifies the baccalaureate area whereas a PCS code of 1.2 identifies the occupational area.

Undeclared Major - This curriculum identifies students who have enrolled in instructional courses who are not pursuing an associate degree or certificate or who have not decided which instructional program (curriculum) to pursue. The ICCB has assigned a non-declared curriculum to each college's curriculum file which is used for the purpose of reporting undeclared major.

INTRODUCTION

The public community colleges of Illinois are indeed comprehensive in terms of their broad curricular offerings. During the 1977 Fall term (FY78), the thirty-nine community college districts (fifty-one individual campuses) reported a combined total of 2,899 educational curricula in 173 different HEGIS classifications. The enrollments for the Fall 1977 term in these curricula totaled 327,850 students. Table 1 below shows the distribution of the number of curricula and enrollments for the Fall 1977 term by instructional program area. The enrollment reported is the end-of-registration (10th day) cumulative enrollment for the Fall term and was obtained from the enrollment cards (E-cards) submitted by the community colleges. The accuracy of the data is, hence, limited to the validity of these submissions. However, to insure valid data, printouts showing the edit run of the E-cards and the curriculum enrollment reports by college were sent back to the community colleges for their verification and/or correction.

Table 1

TOTAL NUMBER OF CURRICULA AND ENROLLMENT IN ILLINOIS PUBLIC COMMUNITY COLLEGES BY INSTRUCTIONAL PROGRAM AREA DURING THE FALL 1977 TERM

INSTRUCTIONAL PROGRAM AREA	NUMBER OF REPORTED CURRICULA		HEADCOUNT ENROLLMENT CUMULATIVE	
	NUMBER	PERCENT OF TOTAL	NUMBER	PERCENT OF TOTAL
Baccalaureate	562	20%	110,454	34%
Occupational/Career	2,043	71%	98,435	30%
Vocational Skills	34	1%	10,827	3%
Remedial/Developmental	38	1%	32,463	10%
General Studies	185	6%	35,663	11%
Undeclared	37	1%	40,008	12%
TOTAL	2,899	100%	327,850	100%

SUMMARY OF CURRICULUM OFFERINGS AND CURRICULUM ENROLLMENTS BY COLLEGE

Table 3 on the next page shows a summary of the number of curricula reported and the enrollments for the Fall 1977 term in each of the community colleges of Illinois. The number of curricula are distributed by instructional program areas and by type of curricula (certificate or degree). The baccalaureate instructional area contains only two-year associate degree programs while the vocational skills and remedial/developmental areas contain only certificate programs.

Table 2 below shows the range in the number of curricula reported by the thirty-nine public community college districts* of Illinois.

TABLE 2

SUMMARY OF CURRICULUM OFFERINGS AND ENROLLMENTS BY COMMUNITY COLLEGE DISTRICT, FALL 1977

	LOWEST	AVERAGE	HIGHEST
Number of Curricula	32	74	433
Number of Students Enrolled	1,690	8,406	89,888

* The thirty-nine districts includes three multi-campus institutions making a total of fifty-one campuses during the Fall 1977 term.

FALL 1977 CURRICULUM ENROLLMENT BY TWO-DIGIT HEGIS INSTRUCTIONAL AREA IN ILLINOIS PUBLIC COMMUNITY COLLEGES

Table 4 on the following page shows a summary of curriculum enrollment by two-digit HEGIS program area. The two-digit HEGIS program area aggregates the various specific disciplines into more general categories. For example, the various botany and zoology disciplines are all included under the category of Biological Sciences (code 0400). These general categories provide a convenient method of summarizing the curriculum enrollments for the entire state.

The curriculum enrollments by type of instructional program area are distributed with the baccalaureate curricula enrolling 110,454 students (34%), occupational/career curricula enrollment was 98,435 students (30%), general studies curricula enrollment was 32,463 students (10%), and vocational skills curricula enrollment was 10,827 students (3%), based upon 10th day cumulative enrollment data reported by the community colleges. An additional 40,008 students (12%) were enrolled in the community colleges of Illinois but did not have a declared curriculum major.

A detailed listing showing all colleges that offer a given curriculum by discipline area is available in the Illinois Community College Board office but was not included in this report because of its volume. The detailed listing does enable one to identify the colleges that offer a particular program such as dental hygiene and is used for such purposes.

STATEWIDE CURRICULUM ENROLLMENT BY HEGIS CLASSIFICATION IN ILLINOIS PUBLIC COMMUNITY COLLEGES DURING FALL 1977

Table 5 on the following page shows a listing by HEGIS classification taxonomy of the number of curricula reported during the Fall 1977 term in each discipline area, the number of different community colleges reporting each curricula, and the total number of students enrolled in all community colleges of Illinois in the curricula in each discipline area during the Fall 1977 term.

The total number of different HEGIS classifications (discipline areas) in which curricula were offered by Illinois public community colleges was 173. It must be noted that a HEGIS classification is fairly broad and often includes several distinctly unique curricula. For example, in the HEGIS classification "5306 Automotive Technologies", a variety of specialized certificate and degree curricula, such as Automotive Mechanics, Auto Body Repair, Auto Power Service, etc., are offered in the community colleges of Illinois.

The list below shows the ten program areas enrolling the greatest number of students during the Fall 1977 term in Illinois public community colleges.

PCS	HEGIS	TEN PROGRAM AREAS WITH THE LARGEST ENROLLMENTS	NUMBER OF STUDENTS ENROLLED
1.1	4901	Baccalaureate Liberal Arts & Sciences	70,110
1.4	4999	Development and Preparatory Studies & Skills	32,463
1.5	4995	General Studies	14,793
1.6	4994	Development and/or Review of Vocational Skills	10,827
1.2	5208	Occupational Nursing (Registered)	9,078
1.1	0501	Baccalaureate Business General	8,221
1.2	5005	Occupational, Secretarial Technologies	7,478
1.5	4993	General Studies Personal Development	7,223
1.2	5505	Police, Law Enforcement	6,826
1.2	5002	Accounting Technologies	6,390
